

There is a necessary change in each breakthrough into further spiritual growth, a necessary change of heart that will lead to a new conversion of ones attitudes and behaviors. There must be a letting go of something in our lives in order to make room for the laying hold of a new and higher consciousness of the presence and claims of God. Norman Shawchuck
In Christ we become . . . and in this creative process we continue to become more. As each vestige of the old person falls away there is reborn within us that something new that can only be brought about through Divinity! God's presence within cannot not be contained by the old it is always new, always fresh, always leading us deeper . . . always creating! The new creature as a new creation knows no bounds!
Dale
