Inescapable is the fact that we need Jesus! But what does that mean; we need? No truer words have been spoken than these: one can live without knowing Jesus or exist without following Him. People seem to do it just fine every day. They breathe, eat, contribute to society, raise families, in fact many seem to get on quite nicely without any type of relationship with Jesus at all. So, how is that so many of us believe beyond question the statement that we need
Jesus
?

Life is all about discovery. When you discovered true love for the first time, you probably wondered as I did, "How in the world did I ever live without this?" One of the greatest discoveries that an individual can ever make about living is that this life has depths to it never before imagined! Awakening to the fact that this life is not all there is to life can be a shock to say the least – knowing that there's something more leaves a mark. Jesus, of course, is the only proper gateway to this newly discovered world. Because, as with everything else, it's of His making. Through knowing Him we become more and more aware that the possibilities of life move much farther beyond any of our old conceived boundaries. We discover a new "need." More than breath, more than food, more than physical relationships – we discover a spiritual hunger that only Jesus can satisfy!

Hopefully there comes a day when we awaken to the inescapable fact that we need Jesus! Now, you can squelch this need and ignore this new discovery – many do. Or, you can reach for it – with heart and mind fully opened you can breathe in an entire new way of living. With new eyes, you can ask the Creator to take you on a tour!

– Dale
